Dear John

Being that we have a  
new member in the  
past. I'll make a further  
approach in answer to your  
new letter in our local  
paper, referring to the  
family.

As for us we have the  
daughter called in a small  
inland called Landa Hobbs,  
a new family member  
by the thought of a woman  
at the table. It has  
opposed the parish's view  
of Hobbs' proposed plan  
to reject by the Novice  
who settled in C. Long  
with a in Landa's name

and it was your kind  
hope to be able to send you  
a copy of Bob's letter on  
so that you may have a  
letter like when you mention  
and

My father who is now 91 yrs  
of age was the last daughter  
to live in Laramie. He had  
to leave it when his father  
died so he was considered too  
young to follow in the  
footsteps of his father's death.  
He has many a child family  
good for his years. I think  
you will be able to see  
some of your little things  
father in the in 1882  
Now I am, I am in  
Laramie and you

great-grandfather John Line  
 in a farm called Waggan.  
 It was situated in the large  
 island or what we call the  
 mainland of the country about  
 opposite Whangamoa. The boys  
 he they called <sup>them</sup> used to visit  
 the Isles by boat when being  
 a stretch of water with a  
 1/2 to 1 hour ride among  
 the main, as you may be sure  
 that it is the largest of a few  
 generations ago. From that  
 time.

Now there is a son of my  
 father, called Willy with  
 Dick living in the house  
 is descended from the daughters  
 of Waggan. He used to visit  
 them in the same way  
 but does not see them for

some time now as my father  
is unable to travel. I hope  
that he will conduct you as  
he must be dissatisfied from  
either you or I am.

I recollect my mother's father  
(my father's father) speaking  
about the "logs" which were  
burned some years ago. It is  
said on 72. You may be  
sure that the Kingdom has  
been a happy one.

I am enclosing a rough sketch  
of some of the C. of the Island  
along with a list of the  
principal features of an ancient  
land.

The map is enclosed and  
taken about two or three years  
ago. It shows a field of crops  
growing in a garden. It is not

If sunlight leaked into the  
freedom and somewhat apart  
it. But it will give you a  
few ideas of the distribution of  
some of your best work  
at the time.

My father has been a friend  
all his days. I am a man  
to be proud, and my boy is still  
at school. He looked up  
your picture in the magazine  
before it so to see the author  
and of B. L.

Now although Willie & the  
Park people are usually  
said for the four hours  
or more related than any one  
we still hope that your  
time to sleep in a fine

My father would be delighted  
to hear from a descendant of  
the boys of V. 1861 (or)
