

Dear Paul:

Thought you might like to have the calendar from Scotland for your collection. I enjoyed very much looking at it during 1973. It will bring back memories of your trip. I would also like you to have the post card.

In addition, for your "Van Wyck" collection, I am enclosing pictures of your great great Grandfather and Grandmother Van Wyck. I have, stored in the attic, the large portraits from which my father had them photographed,

I also have copies for Van.

P.S. I intended to enclose this with the above, but decided to mail separately so that you can be on the lookout for the parcel which I am mailing today by parcel post.

Happy days,
Auntie Tot.
